

# Integrity Service Provider Partner Program

## Partner with GDM to Deliver Smarter Integrity Programs

Asset and pipeline integrity service companies play a critical role in helping Canadian oil and gas producers operate safely, reliably, and in compliance with evolving regulations. However, Delivering these services is increasingly complex.

- integrity programs must align with CSA standards and regulator expectations
- Asset data is often fragmented across systems, spreadsheets and reports
- Inspection, risk, and compliance workflows are difficult to standardize
- Clients expect auditable, transparent decisions backed by data

**GDM empowers you and your team to focus on engineering and regulatory expertise while providing the trusted data and software you need to analyze and execute.**

## Why Partner with GDM?

**Centralized Data:** Access industry leading asset and pipeline information for consistent analysis that is audit-ready and aligned with regulatory standards

**Scalable Workflows:** Repeatable processes across projects and clients

**Competitive Differentiation:** Modern, data-enabled service offerings

**Stronger Client Relationships:** Support long-term integrity programs

### What you Get

---

- **GDM Industry Leading Data:** Access the most accurate, current, and comprehensive oil and gas infrastructure data covering every province in Canada and the Northern United States.
- **GDM Converge:** An intuitive online application to access GDM and client data giving you unmatched data accuracy to easily manage risk and asset intelligence.

### What you Gain

---

- **Efficiency & Quality:** Reduce manual data handling and focus on high-value engineering
- **Market Differentiation:** Deliver consistent, auditable programs backed by trusted data
- **Client Confidence:** Meet producer expectations and regulatory requirements with ease
- **Growth Enablement:** Scale services without increasing risk or complexity

## GDM + Your Expertise = Better Outcomes

By joining GDM as an Integrity Service Provider, your company amplifies its expertise in the Canadian oil & gas industry, delivering safer and more reliable integrity programs for your clients.
